

West Jefferson Elementary - Tickets for Time

Help us get a head start on the 2010-2011 school year, please volunteer today!

The PTA has several committees that coordinate activities and events throughout the school year. Community volunteers provide valuable role modeling for the benefit of all our students. If you are not already volunteering, we would like to invite you to help our school and your child by volunteering your time and talents to one (or more) of the PTA's opportunities. Working on a PTA committee is a great way to meet other parents in the school and develop a sharing community.

Many of the PTA volunteer positions require very little time and several can be done from your home. We welcome community members and extended family members to volunteer in our school environment. We need help and support in many areas that you may have expertise or find enjoyable.

Please check the areas you are interested in participating in on this page and return it to the main office at the school when completed.
